

# Avoid PG&E smart meters for free!

## CALL THE DELAY LIST (877) 743-7378

This will allow you to keep your analog meter(s) until the CPUC hearings on the opt-out program are completed. This could take as long as a year or more, and may result in a no-cost opt out.

**Smart Meters are costing us money,  
privacy and our health and safety.**

If you do nothing, PG&E will install- and once it's on, they won't take it off. Better safe than sorry- call PG&E today!
