Michael R. Peevey, President
California Public Utilities Commission
505 Van Ness Avenue
San Francisco, CA 94012

Subject: Smart Meters

Dear Mr. Peevey,

The San Anselmo Town Council, at its meeting of January 25, 2011, heard public comment expressing considerable concern about the Smart Meter technology, including potential health impacts, privacy concerns and abdication of choice regarding meter installation.

The Town Council directed staff to advise the CPUC that the Town of San Anselmo supports the right of PG&E customers to opt out of Smart Meter installation, and asks that PG&E be required to provide equivalent equipment to customers who choose to opt out. The Town Council also requests that the CPUC disclose all materials on radio frequency research and suspend all Smart Meter installations until PG&E meets these requirements.

Sincerely,

Debra Stutsman
Town Manager
