Engine 9381 responded code 2 for a smoke check at 271 Petaluma Blvd. N. at Dunaway's Paint Store. Upon our arrival we were met by a store employee who stated when he got to work he noticed smoke down to about 4 feet off of the floor of the store. After investigation of the smoke source we found that old or faulty wire inside the conduit from the meter to the breaker box had come into contact with one another melting the smart meter and the mounting box of the meter. Some of the wood was burnt around the area as well. The smoldering of the wood and plastic over what appeared to be an extended amount of time caused the smoke in the building. PG&E was called to the scene to isolate the meter and shut down the power to the building before Engine 9381 checked for extension. The incident was brought under control and left in the hands of the business owner.
