Application of Pacific Gas and Electric Company (U 39 M) for Approval of Modifications to its Smart Meter Program and Increased Revenue Requirements to Recover the Costs of the Modifications.

Application 11-03-014
(Filed March 24, 2011)

**MOTION OF EMF SAFETY NETWORK
FOR REASSIGNMENT PURSUANT TO RULE 9.2(b)**

On March 24, 2011 Pacific Gas and Electric Company (PG&E) filed the instant application for approval of modifications to its Smart Meter program. The modifications would allow residential customers to “opt out” of the program to reduce radio frequency emissions on their premises. On April 14, 2011 the Commission approved Resolution ALJ 176-3272, which determined that this is a ratesetting proceeding. According to the “Docket Card” pages of the Commission’s web site, on April 15, 2011 the Commission assigned the proceeding to Commissioner Michael Peevey and Administrative Law Judge (ALJ) Timothy Sullivan.

Pursuant to Rule 9.2(b) of the Commission’s Rules of Practice and Procedure, EMF Safety Network (Network) moves for reassignment of the proceeding to another ALJ. As stated in the attached declaration, Network Founder Sandi Maurer believes that Network cannot have a fair hearing before ALJ Sullivan.

Network expects to participate in this proceeding and will file a concurrent motion to become a party under Rule 1.4(a)(4).

Network has not previously filed a motion for reassignment in this proceeding.
