

# ARE SMART METERS HARMING YOU???

## **WARNING**

**NOT SMART  
NOT GREEN  
NOT SAFE**

**RADIO FREQUENCY  
HAZARD**

***Problems with smart meters include:***

- **Adverse Health Impacts**
- **Fire and Safety Risks**
- **Privacy Issues**
- **Inflated Billing**

## ***Why Worry About 'Smart' Meters?***

SMUD replaced safe analog meters with digital wireless meters in the Sacramento area. These surveillance devices monitor energy consumption behavior and send biologically harmful pulsed microwave radiation bursts an average of 13,000 times a day. Smart meters emit radio frequency (RF) radiation and high voltage frequency transients known as 'dirty electricity' (DE) into your home, creating serious health and environmental problems.

Many people are experiencing mysterious health symptoms, fires, damage to appliances, blown fuses, and increased utility bills related to smart meters. Police, governmental agencies, and other third parties have access to precise information about your private life without consent in violation of your constitutional rights. Smart meter technology is also vulnerable to cyber-hacking, putting your privacy and security at risk. Take back your power and demand a safe analog meter!

## **Special Sacramento film showing of "TAKE BACK YOUR POWER"**

This eye-opening documentary unveils the smart meter agenda being rolled out worldwide without public consent.

*Screening of film by*

*Sacramento Smart Meter Awareness*

**Thursday, May 16, 2013 at 7:00 PM**

**Sierra2 - 24th Street Theater**

**2791 24th St, Sacramento, CA**

FREE admission, donations accepted - reserve a seat at:
