Please be informed:

Cell and cordless phones, wi-fi, and utility smart meters emit wireless radiation. Based on studies linking wireless to deadly brain tumors, the World Health Organization has classified wireless radiation as a 2B carcinogen, same as DDT and lead.

Wireless can also cause headaches, tinnitus, anxiety, insomnia, cognitive and heart problems, and more. Children are especially at risk. For public safety we suggest:

- Use cell phones for emergencies only
- Replace cordless with corded phones
- Use a wired internet router
- Restore the analog utility meters
