FW: smart meter conf call [REDACTED]: Thanks. Actually, we had already received a copy of this letter earlier and have also met with EMF Safety Network. I am in workshops today/tomorrow. Perhaps we can schedule a meet between us Mon AM or another time next week. Thx.

[REDACTED],

You might find this letter from the FCC interesting. [REDACTED] will be calling you, but we'd like to get together with you as soon as we can on this topic.

Thanks,

All,

The attached letter was sent by the FCC to [REDACTED] in response to a letter she sent questioning the compliance of SmartMeter technology with FCC limits. Below is a link to a recorded conference call held by The Collaborative on Health and the Environment.

Hi [REDACTED],

I'm not sure this is a reportable event for Gateway, but I thought it may be of interest to you. (You wouldn't believe how much time we spend on things that we later decide not to report!)

Below is the link to the conference call info. It contains the briefing letter I mentioned to you. It also has an MP3 of the approx 1 hour teleconference meeting. [REDACTED] relates that the moderator stressed that this is a science meeting and was good about cutting off participants who wanted to discuss filing a lawsuit against the utilities, etc.

http://www.healthandenvironment.org/wg_calls/7808
[http://www.healthandenvironment.org/wg_calls/7808]

Attached is a letter the FCC sent to [REDACTED], which she said she plans to distribute "far and wide." I did not ask for permission to distribute it, though [REDACTED] gave it to me knowing I was considering it as reportable-- meaning if you were wanting to distribute it, I'd like you to contact [REDACTED] so he would know, as a courtesy and just to be safe. I do not have a copy of her inquiry letter to them.

Take care,

[REDACTED]
