

Stop cell towers on every block!

SB 649 would force installation of cell towers into neighborhoods and countrysides throughout California. How many? Likely one every 1000 feet or closer. SB 649 would eliminate local control and public input.

- SB 649 would allow unlimited access to deploy refrigerator-size cell tower equipment on utility and light poles, and sidewalks with no safety oversight.
- **Cities would have no recourse to remove a tower even if every resident complained.**
- **SB 649 would increase harmful radiation.** Peer-reviewed published science shows radiation harms people, and children are especially vulnerable. www.bioinitiative.org
- Peer-reviewed published science shows radiation harms trees, birds, and bees.
- **SB 649 would lay the groundwork for 5G millimeter wave technology.** Peer reviewed published science shows millimeter waves adversely affect health.
- **216 cities, 34 counties, and organizations representing millions of Californians oppose SB 649 including:** Environmental Working Group, Sierra Club California, California League of Conservation Voters, AARP, Center for Environmental Health, The Utility Reform Network, Teens Turning Green, Daily Acts, Mom's Across America, Physicians for Safe Technology, and more!

**Contact your California Assembly member
and Senator to vote NO on SB 649!**
