

# Stop cell towers on every block!

## ***Cell towers emit harmful radiation.***

If SB 649 passes you could awake in 2018 to find a cell tower outside your bedroom window, or on your children's school. Senate Bill 649 would create a state mandated system of cell towers every couple hundred feet apart. SB 649 would harm California.

- **SB 649 would eliminate local control and public input.**
- SB 649 would allow **refrigerator-size** cell equipment on utility poles, streetlights, sidewalks, in parks, on schools and public buildings with no safety oversight.
- Cities would have no recourse to remove a tower even if everyone complained.
- Studies show effects of radiation include: **fatigue, headaches, sleep problems, anxiety, ringing in the ears, heart, learning and memory problems, increased cancer risk, and more.** Children are especially vulnerable. [www.bioinitiative.org](http://www.bioinitiative.org)
- **Studies show radiation harms nature, trees, birds, and bees.**

299 cities, 47 counties, and dozens of health, environment, and consumer groups oppose SB 649 including: AARP, Environmental Working Group, Sierra Club and more! However, the telecom industry has given \$15 million to legislators since 2013. SB 649 has passed all committees and is soon headed for the Governor's desk.

## **Tell Governor Jerry Brown to veto SB 649!**

Governor Jerry Brown  
c/o State Capitol, Suite 1173  
Sacramento, CA 95814  
Phone: (916) 445-2841 Fax: (916) 558-3160
