1	I can't participate in large events anymore due to cells phones. I do EMF Analysis to support folks and sacrifice myself every time I do it. I have constantly meter where I go and ask folks with me if they'd put their phone on airplane and I have many friends who can't find homes.	1/28/2019 2:03 PM
2	Satellite short range-too close and Drone assault E.R 2016, home destroyed satellite demolition. A.I. integrating in brain with all the Targeted electronics, nano sensors in body that geo-tagging and in brain. Electric- very sensitive, unable to stay on phones and sensitive to light and all near death results. 2014	1/28/2019 1:12 PM
3	I don't leave the house much except for essential things such as doctor's appointments.	1/28/2019 4:58 AM
4	Severely affected. Made sick by workplace and extremely difficult to visit restaurants, grocery stores etc.	1/27/2019 8:12 PM
5	I am very sensitive to Electromagnetic waves	1/27/2019 8:01 PM

6	If I am exposed to cellphones I lose my balance/cannot walk in a straight line. Have severe cognitive problems for at least 24 hours after an exposure. Canal community garden where I have a plot is located right under a cell phone tower. I cannot spend more time there than an hour. Since I am a passionate gardener I risk it but not without consequences like a pounding headache and balance issues. I am petrified of the g-5 plans.	1/27/2019 4:57 PM
7	it makes me unable to balance do to brain injures and hearing loss.It is most limiting when in floresent lighted areas.	1/27/2019 4:18 PM
8	NOT AFFECTED EXCEPT DISTURBED THAT PAWN GOVERNMENTS ALLOW CORPORATIONS TO INSTALL ENERGY EMITTING DEVICES WITHOUT CONSENT AND WITHOUT CONSIDERING PROXIMITY OF ENERGY DEVICE INSTALLATION TO CITIZENS LOCATION; IE- ELECTRIC UTILITIES INSTALL SMART METERS NEXT TO WHERE CHILDREN SLEEP-THEY SHOULD NOT NE ALLOWED TO IMPOSE ENERGY EMITTING DEVICES ON PRIVATE PROPERTY WITHOUT CONSENT,	1/27/2019 1:22 PM
9	Being in a place where there are a lot of people means numerous phones that are on and of course, wifi on top of everything else. I tend to go to small events because I will feel healthier. I try to be outside as much as possible but I live in an apartment building.	1/27/2019 12:57 PM
10	EMF devices are not met to be healthy. It is the governments way to keep us unhealthy so that they can control us against their control plans, lower the populations, destroy environments, as the Smart meters did with our horrific fires. It is planned destruction of society, less population, more profits for the illuminatiti. Why is this allowed to happen? All for more money for our government.	1/27/2019 11:54 AM
11	My ears have started ringing, a high pitched sound, when I work in a house with wireless phone & tv connections.	1/27/2019 11:01 AM
12	I've taken osteopathic treatments and other techniques to reduce my discomfort, as well as limiting exposures.	1/27/2019 10:00 AM
13	Hard to measure; but elec smart meter may have caused my fall blackout that some tests have ruled out traditional causes.	1/26/2019 11:57 PM
14	I live in a house I had to shield. There are only a few shops I can visit. I can't visit cities for more than a half hour, and that is with my shielding clothing on. I am highly eduated but can't work outside of home.	1/26/2019 8:23 PM
15	I have been off work for almost 5 years due to my sensitivitiy to EMFs.	1/26/2019 1:34 PM
16	I don't like spending time in wifi envronments, such as the library and cafes. I still visit them, but I would go more if there was wired internet. I don't use a mobile for calls.	1/26/2019 12:28 PM
17	Mostly work limitations	1/26/2019 10:34 AM
18	EMF environment awareness keeps me mindful of how much I exposure It poses on my kids. I try not to be in the vicinity of any cell towers especially ones on top of businesses, schools and libraries.	1/26/2019 8:29 AM
19	inability to sleep	1/25/2019 6:19 PM
20	It is difficult to find work or a house where there isn't wireless infrastructure saturating the premises.	1/25/2019 5:54 PM
21	I must always wear an EMF protective hat or headband at all times. I must always have crystals taped to my temples.	1/25/2019 3:35 PM
22	infringement upon my unalienable rights.	1/25/2019 3:35 PM
23	We are being taken out slowly by all levels of our enviroment, so it is hard to say or pin point exactly how much and by which process has affected any part of a normal life.	1/25/2019 3:07 PM
24	EMFs GREATLY restrict where I can live...I vibrate severely inside,suffer heart palpitations, & brain pain/vibration when in vicinity of wi-fi. My eyes instantly hurt if I turn on mobile phone data. STOP THIS MADDNESS, it's killing us!	1/25/2019 12:54 PM
25	I have realized for years and have done much research, that they are a real danger	1/25/2019 12:34 PM
26	It really could be said that it affects me severely. But I need to keep doing essential things, like shopping for groceries, etc. I don't have a lot of money to be able to have the store send them to my home. I also try to do a few things with my family, in spite of the pain and other symptoms that I suffer for days after.	1/25/2019 7:38 AM

27	So all that talk from Governments and local Councils about providing better accessibility to shops and businesses is crap: they only put up ramps for wheelchair users: the presence of sesame seeds in sandwiches will be better marked in order to prevent further deaths from sesame seed allergy; and supermarkets now provide a good range of products for those with gluten and lactose intolerance. But nothing is done to allow access for that growing number of us (already up to 35% of certain populations) who have electromagnetic intolerance, meaning that we are physically ill when we are in a low frequency electromagnetic environment (wifi, mobile masts, mobile phones etc) and are unable to shop or go about their daily business. It's like we do not matter anymore. Everyone else can enjoy their Citizens Rights, but not us!	1/25/2019 2:15 AM
28	I really don't know. I'm slowing down a bit, but there's no way for me to tell what the source of the "slow down" is.	1/25/2019 1:18 AM
29	I am aware of the potential for problems and i take steps to protect myself from harm.	1/24/2019 8:40 PM

31	I ad to resign from my job as a teacher due to electro-hypersensitivity.	1/24/2019 5:40 PM
32	I haven't been functioning at all.. not even able to work since smart water meters were installed in my condo complex July 2029	1/24/2019 5:29 PM
33	Getting progressively worse since installation of digital 5G Meter 4 monts ago.	1/24/2019 5:19 PM
34	I can't go to my local grocery store, travel on highways with cell towers (very limiting for planning trips away from home), access hospitals or health care where there are wireless signals, I can't ride public transit or take a plane, cruise, use the public library, museum, local pub, theatre, or anything that has wireless signals and no signage/announcement to encourage patrons to put wireless devices including cell phones in "airplane mode" with blue tooth and wifi signal off, not silent/vibrate mode as it still emits a signal that can hurt environmentally sensitive people.	1/24/2019 4:04 PM
35	It wipes out even the idea of healthfully using the downtown business district or our local coop grocery, pizza place, and numerous other establishments. Of course most are blithely unaware anything is going on. If one does these things, our health is declining as we do, which seriously limits enjoyment and ability to have a long and healthy life like God intended us to have.	1/24/2019 3:59 PM
36	very debilitating	1/24/2019 1:40 PM

50	Cell phones run the world and I struggle to use one belatedly.	1/23/2019 9:53 PM
51	i visit a house full of EMF devices and it sucks for me	1/23/2019 8:58 PM
52	I have to avoid any area that has high EMF radiation and cannot stay for long in any venue with wifi.	1/23/2019 8:37 PM

53	Only because I have effective protection that allows me to live in this heavy radiation world	1/23/2019 8:35 PM
54	I don't use a cell phone or a smart meter but others do near me.	1/23/2019 8:08 PM
55	Our whole family is affected and we can no longer eat out or travel. My two grand children who get really sick from prolonged exposure have been denied accommodation and have to be home schooled. They now live in isolation with no friends	1/23/2019 8:00 PM
56	not really sure. I only recently become aware of this being a source to a variety of health effects	1/23/2019 7:45 PM
57	I really don't know. think it maybe affecting my sleep, but i have no idea.	1/23/2019 7:14 PM
58	Pressure in brain .. exhaustion.... tinnitus it is frequencies ... inability to concentrate...can't do the shopping visit family...only a quick trip into town tower the doctor...not driving or gardening ... housework is minimal..	1/23/2019 7:13 PM
59	I am out in the EMR/RFR environment most days and sleep in my vehicle to be able to sleep and counter the effects at night.	1/23/2019 6:59 PM
60	I am unable to work because WIFI and EMR are now in all schools, universities and other workplaces	1/23/2019 6:39 PM
61	I avoid homes/meeting places with too much IOT.	1/23/2019 6:30 PM
62	I have blue shield units to protect me from the fields.	1/23/2019 6:29 PM
63	significant headaches & fatigue in any environment with wifi, etc, etc	1/23/2019 6:08 PM
64	I have serious night time reactions from being in a large crowd of 50 or more adults because of all the cell phones.	1/23/2019 6:08 PM
65	The EMF readings in my living room are so high that I do not use that room	1/23/2019 5:53 PM
66	You should have included sleep; something on the telephone pole outside my bedroom was making me dizzy until I covered my bedroom wall with aluminum foil.	1/23/2019 5:53 PM
67	I am totally dependent on my spouse	1/23/2019 5:45 PM
68	I had to retire.	1/23/2019 5:17 PM
69	EMFs are killing good life on Earth	1/23/2019 5:08 PM
70	I have become sensitive to some smart meters, cell phone, home routers and many car wireless systems...Headaches and dizziness are my main symptoms	1/23/2019 4:54 PM
71	Heart went into Afib had 4 heart surgery's	1/23/2019 4:43 PM
72	Could not serve on jury duty, cannot go to movie theaters or large gatherings with high EMFS due to everyone's wireless devices (wearable, cell wifi, cellular) and visits to see grandchildren have to be planned on non wifi flights, combined with auto travel. Getting harder to do.	1/23/2019 4:09 PM
73	I don't know	1/23/2019 4:07 PM
74	I don't like being in areas where there is WiFi. I can "handle" it, but after a while feel head-achy and uncomfortable	1/23/2019 4:02 PM
75	My wife and I got tinnitus about the same time ..annoying at times	1/23/2019 4:00 PM
76	I have to carefully limit the amount of time I spend in high EMF environments.	1/23/2019 3:48 PM
77	Impossible to avoid.	1/23/2019 3:47 PM
78	I can't go into the city. If I do I have to go to bed and sleep for an hour and 15 minutes - nearly to the minute - so my brain can recalibrate. Really odd.	1/23/2019 3:45 PM
79	We limit all wireless in our home for the most part so get exposed from neighbors.	1/23/2019 3:42 PM
80	I have removed or limited usage to limit exposure to EMFs	1/23/2019 3:24 PM
81	I had to move my electric meter off my house, and turn off my wifi every night to sleep.	1/23/2019 3:22 PM
82	I have to wear protective shielding over my heart all the time. I also suffer from sporadic brain fog.	1/23/2019 3:15 PM
83	I am not electrically sensitive but consider us all susceptible	1/23/2019 3:11 PM
84	Life altering	1/23/2019 2:45 PM

85	I haven't been able to work for 10 years due to EMF sensitivity and Multiple Chemical Sensitivity	1/23/2019 2:27 PM
86	I have not installed sheilding on all my ceilings. Most of them I have.	1/23/2019 2:26 PM
87	I have hypertension or high blood pressure and chronic brain/fog fatigue. i know the wireless EMFs have something to do with it.	1/23/2019 2:22 PM
88	ear and side of head with cell phone within 4-6 inches	1/23/2019 2:12 PM
89	When I am at home can't enjoy it.	1/23/2019 2:03 PM
90	I have health effects	1/23/2019 2:03 PM
91	I'm not EHS bit don't like to be around cellphones and public wifi, so I avoid public crowded spaces i.e. museums, large events	1/23/2019 1:46 PM
92	I no longer have a sense of 'dead reckoning' I use to have most of my life.	1/23/2019 1:33 PM
93	It has made me a prisoner, unable to do most of the things I used to do.	1/23/2019 1:33 PM
94	Im recieving unusual frequencies in my home picked up on monitoring equipment	1/23/2019 1:31 PM
95	I avoid highly electric areas like big cities (they drain me) and I turn off WiFi and my cell phone most of the time at home.	1/23/2019 1:31 PM
96	I get headaches when exposed to WiFi or in other areas with high EMR. I avoid our public library because they have WiFi. Sadly there is a cell tower next to our local health food store.	1/23/2019 1:20 PM
97	Certainly takes away time from family, friends. If I spend too much time on computer or cell phone, I also can get headaches, or a bit disoriented. I do have trouble when I have deadlines and have to spend non-stop time on computer. I try to use speaker phone when possible. Some cell phones actually give me headaches at the time I use them. I try to limit my time on cell phone. The cell phone I have now will not give me headaches, unless I'm on for a long period (half-hour or usually even longer before a headache sets in.)	1/23/2019 1:19 PM
98	I made electric company remove Smart meter from our house last year when we moved. FPL now charges us \$13.00 per month to come out and read our meter	1/23/2019 12:59 PM
99	was forced to move	1/23/2019 12:56 PM
100	I own nothing wireless & shopping limited to places that don't traditionally have them like groceries, mail, & drug stores.	1/23/2019 12:51 PM
101	Actaually I have no way to measure this.	1/23/2019 12:42 PM
102	health downturn since neighbour had smart meter fitted - less than 5 feet from my headboard next door !!	1/23/2019 12:41 PM
103	wifi, cell towers, large groups of people with cell phones are all attend with caution.	1/23/2019 12:40 PM
104	There is no way to get away from the electrosmog. I avoid when feel I can.	1/23/2019 12:30 PM
105	I have EHS diagnosis from an environmental doctor	1/23/2019 12:30 PM
106	Past EMF effects have affected my wife	1/23/2019 12:26 PM
107	have been on disability. Cannot just go anywhere I want. Main problem is trying to live in home with smart meters forced on. LOTS OF PAIN HEART ISSUES ETC	1/23/2019 12:25 PM
108	Currently I'm wxperience a high pitched noise as well as my neighbors. After research, I think it is Comcast and their service and/ or their routers . They are so powerful. Had an emf expert to pinpoint problem, she did a reading of the outside of my duplex property where the router was sitting inside the unit and the reading was very high. Powerful.	1/23/2019 12:23 PM
109	I sometimes feel pressure sensation / headache, but actively reduce sources of EMF around me.	1/23/2019 12:21 PM
110	I have intermittent ringing in my ears that started when I lived in an apartment, surrounded by wireles. It affects my sleep and my ability to relax.	1/23/2019 12:19 PM
111	We've had to rearrange rooms at home and can no longer be in cafes and businesses with WIFI.	1/23/2019 12:19 PM
112	complete disability	1/23/2019 12:14 PM
113	Scattered, fatigue, chronic body pain, migraines, heart palpitations	1/23/2019 12:11 PM
114	as I try to stay away from it at least where I have power to control	1/23/2019 12:11 PM

115	I have become severely ill in the last eight months due to finally figuring out what the intermittent nausea, face flushing, migraines and heart palpitations were about. Since that time, I cannot be around any Wi-Fi or smart meter emissions without a severe migraine developing and/or heart palpitations. I have nausea almost all the time.	1/23/2019 12:08 PM
116	I feel less tired when I'm not around computers	1/23/2019 12:08 PM
117	?	1/23/2019 12:07 PM
118	sensitive	1/23/2019 12:04 PM
119	I got better with qigong! Before it was severely	1/23/2019 12:03 PM
120	Most of all, it affects where I sleep- I cannot sleep anywhere near routers or smartmeters, or urban/suburban areas.	1/23/2019 11:55 AM
121	anxiety that I have never had before	1/23/2019 11:51 AM
122	My life and health have been ruined.	1/23/2019 11:45 AM
123	I have a power line behind my house - Wake up in pain every day because of it.	1/23/2019 11:45 AM
124	I'm completely wired and don't want to be around anything wireless or any wireless device	1/23/2019 11:24 AM
125	It was much worse before I addressed my exposure properly.	1/23/2019 11:23 AM
126	I have constant ringing in my ears- i can no longer tolerate wifi or flourescents for more than very short periods of time, and once 5G is embedded in our environment, I have no idea what I will do.	1/23/2019 11:17 AM
127	I have little around me that emits: I tested the field strength around my bed, make sure I have no emitters close by, there are no cell phone towers, power lines or transformers nearby, I avoid being near emitters, etc.	1/20/2019 11:59 PM
128	There's a huge tower about 3 blocks from my house. We have both a "smart meter," on the water and electric. My tinnitus has gotten so bad, I don't sleep very well at night, anymore. We shut the Wi-Fi off at night. My roommate turns it on when she gets up in the morning. The ringing immediately starts and I'm unable to go back to sleep.	1/18/2019 12:50 PM
129	I FEEL LOUSY WHEN EXPOSED, OK WHEN NOT EXPOSED, BEST IN SEVERAL DAYS FROM EXPOSURE. WORKING IS GETTING MORE DIFFICULT AS WELL AS TIME WITH FAMILY. DOCTORS AND PEOPLE IN GENERAL NOT RECOGNIZING THIS AS A VIABLE ILLNESS.	1/16/2019 12:23 PM
130	Fluorescent lights, phone screens and WiFi routers are the biggest offenders to me	1/15/2019 7:26 PM
131	kaiser permanente ignored their study and stated EMF complaint was delusional and schizophrenic.	1/15/2019 4:04 AM
132	at home too ,as neighbors use DECT phones (the worst!) ,powerful dual band wifi ,wigig,and in parking lots and driveways ,many have 9 ghz perimeter / parking radar to help them park and avoid bumping into curbs ect. and blue tooth devices	1/9/2019 12:29 PM
133	daily limitations	1/8/2019 12:31 PM
134	Had cardiac problems cause of it and sleeping trouble	1/8/2019 10:26 AM
135	I believe the smart meter out side my front door causes many quirky things to happen as far as my reception on my radio etc. etc.	1/3/2019 8:07 AM
136	I believe EMF is related to the fatigue that everyone is experiencing.	1/2/2019 2:26 PM
137	With 5G rolling out. It's going to get very bad for any people who are near sources.	1/2/2019 7:40 AM
138	The full extent has not been determined!	1/2/2019 3:56 AM
139	Not sure ! I had a server turned off in my school office, since I was not using any remote device.	1/2/2019 3:18 AM
140	I can't go a lot of places because of it. If I do, I risk illness.	1/1/2019 10:43 AM
141	It's unseen and unfelt, but there and I know it causes damage to mitochondria and DNA	1/1/2019 10:11 AM
142	I will ask for wi-fi to be switched off if i do stay overs. I get mid- brain fuzziness headaches. I would leave study class and go home to get out of the environment of wi-fi.	12/31/2018 7:11 PM
143	I ask grandchildren to turn off cells at meals, and they limit their time when with me.	12/31/2018 5:45 PM

144	I am on disability due to EHS and can't go many places or do many activities I used to because of it.	12/31/2018 3:42 PM
145	We pay attention to it.	12/31/2018 3:39 PM
146	The EMF environment limits my interior design freedom since I don't want to put bed near wall with meter on other side. Also limits my free time with all the extra time spent researching sources on internet. Also impacts safety of disabled senior citizens who may wish to have a wireless or cordless phone on their wheelchair for safety, but it will cause harm.	12/31/2018 3:09 PM
147	Cannot really go anywhere, including doctor, without SEVERE effects. Cannot work except inside home. Cannot be outside on my own property due to cell tower.	12/31/2018 2:23 PM
148	It might be more, but my house us fairly shielded & folks come to me...	12/31/2018 2:23 PM
149	Are my migraines caused by this? If so, then my answer is severely	12/24/2018 1:10 PM
150	My daughter is severely affected, so, of course, this directly affects me as well when she is at my home or in my car--which is a lot.	12/22/2018 8:46 PM
151	I must wear radio frequency blocking clothing 24/7. I have to bring an RF meter with me whenever I go to another person's home or a hotel, to see if I can even be in the room. , or hotel	12/18/2018 10:15 PM
152	I am not a huge user of phones but we do have wifi router in the house. I probably relate more to the effects of it and the smart meter outside my bedroom.	12/18/2018 8:39 AM
153	headaches, heart palpitations, irregular heartbeat, burning eyes & eye sockets, skin rashes, red face	12/17/2018 10:08 AM
154	I avoid all spaces with WiFi, so that means limiting visits to many public places such as shops, coffee houses, etc. and not spending time there to socialize with friends	12/15/2018 4:41 PM
155	I've had severe EHS for 5+ years. I can't go to most any public places, unless I were to wear strange, protective headgear.	12/15/2018 1:02 PM
156	I live alone and don't have any wireless devices. I also paid the "extortion" fee to keep my analog meter in Mi.	12/15/2018 7:52 AM
157	I avoid EMF inside my home.	12/15/2018 6:58 AM
158	always have to ask people not bring dirty tech into my home	12/15/2018 5:59 AM
159	Constant migraines do bad I wish I were dead. Forced to live in constant pain were I have no life anymore can't live in Alaska with out heat and electricity. Imagine your utility company having been given billions to forcefully put these on your home or they turn you off for noncompliance it's December here in Alaska and utilities due to turn us off by January so will freeze to death and the utilities received billions of tax's payers money to fund this yet we can't opt out of something we never opt into? California fires smart meter over heating problems catching fire with gas lines house explode yet no rights to our safety or health were being turned off to protect our health and property. This is outrageous their is no common law allowing this. People have no rights anymore.	12/14/2018 7:10 PM

165	I live in a ground floor apartment and there is a smart meter on my bedroom wall that is for the apt above me... I am hyper sensitive to any WIFI and after having a stroke my health has been declining,, nights are a nightmare I am in constant pain and my head pounds I was able to travel to a remote area in Mexico where I stayed in a wifi free home for 2 months... no headache and no pain At the age of 85 I don' t need the problems that a smart meter brings.. I have done the research The upstairs tenant refuses to have it removed even tho I said I would pay all expenses including the monthly fees	12/13/2018 3:32 PM
166	No sleep, memory loss, break out in sweat around too much wi-fi. Body gets nervous, anxious, no restful state.	12/13/2018 2:46 PM
167	I am in solitary confnemnt.	12/13/2018 2:02 PM

168	Ever since a smart meter was installed on our house I have trouble sleeping.	12/13/2018 1:02 PM
169	I do feel sick and rundown after continued exposure. Also took WiFi router out of home and my sleep improved.	12/13/2018 11:40 AM
170	I do not use cell phones or wireless by choice. Smart meters forced on me.	12/13/2018 11:12 AM
171	I have adopted my lifestyle for a long time to coping with my sensitivity - no smart phone, no smart meter, avoiding walking under major power lines, and avoiding CFL light bulbs----for such a long time that I do not realize how much it affects my life. I become aware of my compromise when I see someone using a smart phone.	12/13/2018 10:11 AM
172	In addition to not being able to travel I have had to spend tens of thousands of dollars to remediate the RF hitting my home from a cell tower a couple of hundred ft. away.	12/13/2018 9:02 AM
173	Mira Mar Mobile (Senior) Community in Oceanside, CA (crisis in Park)	12/13/2018 1:27 AM
174	I'm not electric-sensitive but I'm very concerned about living a 13th of a mile from a cell tower. The emitters are directed at my house and visible from my windows. Even after painting my bedroom with shielding paint the RF levels are above safe levels. I don't use my back yard because the RF levels are too high for me to feel comfortable spending time there.	12/12/2018 9:52 PM
175	Maybe a lot if the current EMF is harmful to me and I haven't realized it yet.	12/12/2018 9:08 PM
176	Smart meters have made it difficult for me to work at home because they are surrounding my apartment. I have difficulty sleeping and get headaches and heart palpitations when I'm near the Smart meters.	12/12/2018 9:01 PM
177	The current EMF environment does not limit me, that I know of.	12/12/2018 8:27 PM
178	Affects my sleep and ability to use standard communication avenues	12/12/2018 6:21 PM
179	Biggest problem for me is that I hear high pitched noise and longterm streaming noise when I am trying to sleep. Often wakes me up at night as does others in my household. So I am often sleep deprived and frustrated on workdays.	12/12/2018 6:07 PM
180	It has significantly changed my life.	12/12/2018 4:23 PM
181	Know how to limit exposure and still be active. Not EMS.	12/12/2018 4:05 PM
182	Cannot sleep	12/12/2018 2:40 PM
183	Actually, having these devices seems to enhance my lifestyle, not limit it. I don't quite get how they would limit lifestyles	12/12/2018 1:23 PM

186	If you include a future of health effects, then the answer changes.	12/12/2018 8:09 AM
187	I have had to move, leave hotels with heavy wifi, had physical problems. Some homes are too toxic for me to visit. Once I spent time at a friends and went home and passed out for three hours. People make fun of my electrosensitivity.	12/12/2018 7:02 AM
188	I am currently unable to live in my home with my husband and 5 children, because I got so sick from our smart meter. I have notes from doctors from two major teaching hospitals but the utility refuses to remove the meter as the doctor has ordered. We previously removed all other wireless devices. Even the backyard is contaminated by the Mesh Network. I really need a safe place to sleep for my body to recover at night. I became more electromagnetically sensitive after exposure to smart meters.	12/12/2018 6:48 AM
189	I am exposed to them in my home and bedroom and have none of these devices. I am exposed at work and use none of these devices. My health has gone suffered ever since they installed a smart meter on my home. I have over 20 broadband signals entering my home, like it or not. It is like being in a microwave prison!	12/12/2018 6:12 AM
190	It was sever but I've made adjustments over the past 6-years and it's calmed somewhat	12/12/2018 5:48 AM
191	I am aware of EMF and therefore limit use	12/12/2018 5:15 AM
192	Totally changed life, career.	12/12/2018 5:10 AM

193	I don't use smartphones and only use the internet for some news or to educate myself on certain subjects. I never have wanted to use social media, I don't watch or listen to anything online.	12/12/2018 4:54 AM
194	I live in Westminster MD, and I am so sick, to the point have have to stop working Verizon and ATT are increasing the frequencies level in this area, I feel my life in coming to an end, what this wireless carriers are doing in this area is a CRIME, we got to do something before they kill us all.	12/12/2018 4:45 AM
195	I don't really know. A moderate amount is just an estimation.	12/12/2018 3:57 AM
196	Completely house bound cannot do anything	12/12/2018 12:52 AM
197	I am a targeted individual and have had beams aimed at me almost 4 years. I can't always sleep when I want and then I am too tired during the day to go places or handle important things I need to do. See targetedjustice.com for more information, if you do not know what I mean. It has been hard on my health even though I don't have wireless at my home and do not carry a cell phone. It is human rights abuse.	12/12/2018 12:36 AM
198	Headaches, severe fibromyalgia, muscle cramping, brain fog, large bruising, fatigue, interrupted sleep, etc.	12/12/2018 12:36 AM
199	11 years of EHS, must work at home, everything became difficult	12/11/2018 10:34 PM
200	I worry about spending time at our kids' friends' houses, doing sleepovers, visiting the library even.	12/11/2018 10:29 PM
201	My employer recently insisted I use a cell phone. I use speaker, keep it as far away as possible & still feel it in my head. I avoid wireless environments due to the brainfog and headaches they cause.	12/11/2018 10:16 PM
202	I am not able to live a normal life due to cellular tower and wi-fi broadcasts	12/11/2018 10:06 PM
203	With a mobile lifestyle (much house sitting) it takes a lot of work to mitigate the environment to minimize exposure. And i suspect aside from conscious tingling sensations from exposures, my general health is being impacted, e.g. tinnitus, hearing distortion.	12/11/2018 9:24 PM
204	Im the Canary In The Coal Mine My home is NO EMF my time in EMF-Land is limited to one yoga class per day and a visit to health food store for 18 min per day.	12/11/2018 9:21 PM

211	depends how close it is	12/11/2018 6:50 PM
212	I can no longer go to restaurants, concerts, movies or spend time anywhere that people gather. I can't go to the library, the gym, or music festival, seasonal street festivals, etc. I can't visit my own brother because he lives in an apartment building where is is impossible to control the EMFs in the environment, and I can no longer visit most of my freinds because it has become impossible to eliminate all the sources of RF. My entrie life is spent in my own house or in the woods. Even the RF sheilding in my home is becoming inadequate now that the entire neighborhood has smart meters and the cell towers have more antenas on them and my neighbors all have Wi-fi and wireless burglar alarms, etc.	12/11/2018 6:17 PM
213	Can't live in high EMF environments	12/11/2018 6:13 PM
214	i have become electrically sensitive. It began when the smart meters were deployed where I live and work	12/11/2018 5:59 PM
215	I feel generally unwell even in my home, due to neighbor's wifi. Other expusures can be even worse.	12/11/2018 5:37 PM

219	cooking takes a little longer as I refuse to use a microwave oven	12/11/2018 4:54 PM
220	I hate most of them	12/11/2018 4:42 PM
221	I cannot wear a bluetooth headset without getting a swollen ear!	12/11/2018 4:33 PM
222	I don't know cause-and-effect, symptoms, for example, of tinnitis & headaches...so cannot say.	12/11/2018 4:20 PM
223	I am not able to work for clients in their own offices because virtually everyone has wifi and cell phones. In order to visit my mother in her own home, which has 8 smart meters just 10 feet from her front door, I have to wear a shielding cap.	12/11/2018 4:13 PM
224	Just need to stay off phone and keep in airplane mode, limit time in houses with cordless phones and wifi.	12/11/2018 4:04 PM
225	I was ill almost immediately after smart meters were installed, I have EHS	12/11/2018 3:41 PM
226	I am active in opposing these radiation devices but have not personally been able to identify symptoms for myself.	12/11/2018 3:23 PM

229	sitting by wifi routers make me feel irritable, uneasy and "edgy"	12/11/2018 2:37 PM
230	It has been increasing my depressions symptoms making me not irritable, sleepy, sad and so on	12/11/2018 2:36 PM
231	Limit your lifestyle? How could it?	12/11/2018 2:28 PM
232	I am EHS sensitive. In Sweden they will diagnose this and prescribe 2 weeks in a EMF free area while in the US you are diagnosed with symptoms of mental depression and prescribed drugs that I refuse to take.	12/11/2018 2:07 PM
233	I don't own a smartphone and my cell phone is always off in the glove compartment of my car. I tend to steer clear of anybody who is addicted to their phone. We have no wireless in our house; all of our computers are wired and we use landlines.	12/11/2018 2:02 PM
234	I was forced to relocate when the entire roof of my apartment building was made into a base station.	12/11/2018 1:57 PM
235	Severity is relative to the source of exposure. Stand me next to a tower and I'll have a bigger problem than if I'm just at work amongst wifi everywhere.	12/5/2018 7:39 PM
236	Not able to WORK, do not shop, seldom leave safety of home, LONELY, SAD, ISOLATED, MAD, Sometimes just want to DIE	12/5/2018 9:27 AM
237	I have been "let go" from a job 3 times. My supervisor said, "I know you are a good teacher, but you are arriving on the wrong day, and getting there late. What is wrong?"	12/4/2018 5:57 AM
238	unable to work, socialise etc, spend most of the day in pain management and trying to heal self	12/3/2018 4:00 PM
239	I have been EMS (electromagnetically sensitive - this is the ADA - U.S. Access Board's term) for 8 years now. I say severely, because it has completely changed my life. I am not able to practice my profession. I shop at night when fewer people are in the stores. I don't play. My friends and family accomodate me, but I did not attend Thanksgiving dinner this year because there would be many guests and I did not want to become the center of attention and start the holiday on such a tragic subject.	12/3/2018 9:56 AM
240	I have suffered symptoms 5 times while on EMF testing jobs	12/3/2018 9:38 AM
241	I have constant headaches unless completely away from an EMF environment	12/3/2018 8:19 AM
242	Cellphone tower emissions.	12/3/2018 4:04 AM
243	i don't work which is a great relief because I couldn't handle computer work phones cash machines etc for long periods of time	12/3/2018 3:37 AM

245	I live my life to the fullest and refuse to allow it to control my activities	12/3/2018 1:39 AM
246	I can no longer shop, attend meetings, eat out, use public transport, buildings and libraires, yet I am forced to pay property taxes.	12/2/2018 7:09 PM

247	Mostly my sleep	12/2/2018 4:01 PM
248	Can't go to public places or friends houses without it effecting me	12/2/2018 8:42 AM
249	Shattered my former life: Serious injury and life impairment, with severe financial effects as well as social.	12/1/2018 11:58 PM
250	Since July 2015, I've been almost 100% restricted to living on our Rural-residential allotment. Unable to work, visit family, shop, or go anywhere, except mostly very short local errands. With days needed to recover from these.	12/1/2018 6:32 PM
251	affected in my yard at home, at shops, church, while travelling, at health providers of all sorts, friends' houses - few locations not affected	12/1/2018 2:45 PM
252	I make a decision each time i choose to go out socially. If i go I will be ill - sometimes it is worth it most times not. Our lives have become very small :(12/1/2018 1:48 PM
253	I can feel headache, oozy, with desire to vomit, fatigue, spasms, itchy skin, involuntary movements	12/1/2018 6:19 AM
254	I stay in a faraday cage almost 24/7.	11/30/2018 10:26 PM
255	As all shopping centres, coffee shops, medical centres, hospital and public places are full of high levels of microwave non-ionised radiation.	11/30/2018 9:03 PM
256	Unable to work as I cannot tolerate wi-fi. Every aspect of life affected.	11/30/2018 8:54 PM
257	It has made me homebound, but I'm not even safe in my own home due to all the WiFi networks (47 of them so far) and Smart Meters in my neighborhood.	11/30/2018 4:52 PM
258	I am not incapacitated but symptoms do limit the amount of time I spend in public places	11/30/2018 4:07 PM
259	I cant find housing where I am not exposed	11/30/2018 11:41 AM
260	i am homebound mostly, i live in a shielded home, and limit my outings to essential trips for food and medical	11/30/2018 9:29 AM
261	I try to mitigate as much as possible even though I am not (yet?) physically affected, so I am limiting myself in terms of convenience.	11/30/2018 8:20 AM
262	I really feel the ill effects of wireless when I am in 1 location for hours ie sleeping in bed all night	11/30/2018 7:41 AM
263	I don't have or use a cell phone. People often expect that they can text messages to me and I have to remind them that I don't text.	11/30/2018 7:38 AM
264	Cannot tolerate WiFi and cell phones. Unable to stay in motels/hotels. Restaurants and libraries are inaccessible to me. Friends and family are perplexed by my intolerances.	11/30/2018 5:58 AM
265	I know that emf from mobiles cause cancer. see emfscientist.org	11/30/2018 4:50 AM

9	Sleep improved since towel over screen door against bedroom wall of outside electrical smart meter. Hard to measure; but elec smart meter may have caused my fall blackout that some tests have ruled out traditional causes.	1/26/2019 11:57 PM
10	When badly exposed my ears ring, chest hurts and ears go red. Buring feeling in hands, feet and face. All this on top of that listed above.	1/26/2019 8:23 PM

11	buzzing in head, unable to walk under cable nodes on overhead wires without pain, head pain, able to "feel" some smartphone use in a group, and locate where the "offending" device is, I have to leave my home at times, and hang out somewhere else, I have to leave some places at times because the vibes are too strong. a cell tower was close behind a restaurant in Thomasville, Ga., and I put my hands up to my head and told my friend I had to leave as it was too painful. She said the minute I put my hands up to my head, she heard a click click click coming from my left earring.	1/26/2019 1:53 PM
12	hyper-activity/feeling agitated, tingling in hands and feet, tremors	1/26/2019 1:34 PM
13	If I talk on a mobile phone for more than about 4 minutes, I get a deep earache, a red ear and my skin feels hot. Sometimes I also get a slight headache.	1/26/2019 12:28 PM

26	Unaware of any possible illness	1/24/2019 10:08 PM
27	Nothing that I am aware of yet but I am VERY careful about how I live and use things that expose me to EMF. I live away from cell phone towers and try to limit exposure to all EMF.	1/24/2019 8:40 PM
28	Occasionally have slight balance issues and cough; Also have the following but not sure they are directly related, although they may be: athlete's foot, and enlarged testicular probably the result of testicular torsion.	1/24/2019 7:31 PM
29	Tinnitus	1/24/2019 5:40 PM
30	Nose bleeds , numbness , tmj , bringing my teeth went through new night guard, tingling ,my fingers, hands are totally numb nausea ew night guard .	1/24/2019 5:29 PM
31	Smart Meter installed 4 months ago..... monitoring health changes	1/24/2019 5:19 PM
32	The stress and anxiety only occurs when I'm in wireless environments. When I'm away from these signals I am happy and relaxed. Friends are welcome to use their cell phones as long as they announce they are in airplane mode with signals off. They can take photos, share information that has already been downloaded etc. If they move 50 ft. away from me to text or call, I can't feel the signal. "Step away from the crowd", shows respect for those who may be sensitive.	1/24/2019 4:04 PM
33	A whole variety of EMF-related illnesses, symptoms, and problems have arisen since the smart meter forced installation, cell phone tower install., use of cell phone (now down to near zero). I experienced heart problems as the most concerning, necessitating 2 major hospitalizations in the last 2 years, one with over 30 very worrisome tachycardia events.	1/24/2019 3:59 PM
34	My heart rate falls so low that my pulse cannot be palpitated. Severe pain 24/7	1/24/2019 1:40 PM

50	bladder control	1/23/2019 11:25 PM
51	These aren't the best questions to ask.It depends what is causing the emf radiation. Cell towers create headaches and sharp stabbing pains, GPS in cars passing by cause stabbing pains thorough out the body at differnet time, cell phones, from others can cause headaches, stomach pain, eye pain. I think it depends what and where it comes from.	1/23/2019 11:15 PM
52	I have poor vision (macular degeneration related to old age, hearing problems related to old age and word recall problems related to old age.	1/23/2019 9:53 PM
53	My health problems are related to how close, and how long, I am close to EMF exposure.	1/23/2019 9:34 PM

80	Pangs in my thumbs	1/23/2019 1:56 PM
81	weakness especially in legs due to high EMF in the car (Nissan Versa Note)	1/23/2019 1:52 PM
82	going to a chiropractor 2xaday. I went to a man who I witnessed him rebuilding his body and asked him to teach me what he knew. In 4 hours I had a list of supplements and a place to order from. Without expanding on the supplement list and dosage list, when I received the order and began supplementing, in 14 days nothing changed but on day 15 all my joints stayed in place and I began healing and learning on how to walk again. In 10 years I went back to my chiropractor and asked for another full body xray. MY right leg was same size of my left leg for it had grown 2 1/2 inches to equal the left leg, foot size both now size 10, left thy at the hip 3 full hand spreads, the chiropractor was astounded and excited. Then I asked if I had grown and taller, Oh shurley not said he, my body also had grown 2 1/2 inches taller, a real shocker to him but then we realized my right leg grew 5 inches (not 2 1/2 inches) nowe I was at age 50. That was to start and proof of nuthritional supplementation I needed to stay alive and healthy. Because if my staying healthy at age 87 and the cell tower 150 feet away and a smart meter on the building I dont have any effect from EMF and I can testify it is because my health is kept in nutritional health. I can and do testify of this fact and truth and mentor and help many with their diseases and poor health giving back what God has and is giving to me. PS. THE first part of this message may have been dealeated because as I typed I came very close to the (x) and the line deisapeared. Not knowing what happened, I continued on writing, not starting over, so, I dont know how much is missing of the first part. 196	Lymph nodes in neck swell up causing tightness in neck muscles.	12/11/2018 4:04 PM
197	I have just been diagnosed with pancreatic cancer.	12/11/2018 3:41 PM
198	Not sure	12/11/2018 3:23 PM
199	All these occurred when I was living with a smart meter outside my window and a wifi router in my room. When I removed them, these symptoms disappeared almost entirely. We still have wifi, though I am hoping to move to being wired in soon.	12/11/2018 3:19 PM

213	Ashamed, embarrassed as going out in public I cover up with masks, scarves, coats, gloves and it is HOT here	12/5/2018 9:27 AM
214	jaw pain	12/4/2018 3:36 PM
215	Chemical sensitivities. I had mixed metals in my mouth and toxic carpet at work, and very high EMF in my house.	12/4/2018 5:57 AM
216	aches in legs, tingling in feet and upper lip...burning skin	12/3/2018 7:36 PM
217	the rays burn through my body. I now have bones growing on my bones, accelerated aging, dried out etc	12/3/2018 4:00 PM
218	Horrible outcome during acupuncture with metal needles (i.e., I guess = receiving antennas) in a dense RF-EMF environment.	12/3/2018 11:25 AM
219	The week the smart meter was placed behind my head and went started transmitting, I lost a third of my hair in one week. No doctor could figure out what was wrong. My dermatologist did a biopsy of my follicles and determined my body had received such a shock that I was no longer producing hair and she informed me all of my hair would probably fall out in the next month. She asked me if I had started chemo. Not knowing that the wireless radiation was a problem I slept next to it for a year and a half. On the side of my head facing the meter I lost a molar that was in perfect condition, my hearing on my left side and my left eye filled up with "floaters".	12/3/2018 9:56 AM
220	Groggy and dopy feeling while exposed to DE and RF. Makes me feel drunk and unable to drive car.	12/3/2018 9:38 AM
221	Tinitus	12/3/2018 5:59 AM

222	Intense burning from the heart upwards to the top of the head.	12/3/2018 1:39 AM
223	M body changes temperature, for example my hands get hot and tingle using a mobile.	12/2/2018 10:15 PM
224	Night leg cramps, Facial muscle twitches- reproducible in high electric/ magnetic at heart level	12/2/2018 4:26 PM
225	I get stabbing pain in my ears, which progresses to severe headache. Continued exposure leads to full body fibromyalgia-type pain which takes days to clear w/o any exposure whatsoever. Sometimes heart palpitations, too.	12/2/2018 3:54 PM
226	Stabbing chest pain	12/1/2018 11:58 PM
227	itch not rash; leaden-legged (blood viscosity changes??), digestion might be impacted (not sure on that), symptoms vary with type of exposure eg mobile phone tower = fatigue, NB have found an association between sinus (including posterior sinus) bleeding and emr exposure probably fields around 1 vot per meter and higher	12/1/2018 2:45 PM
228	Many other multi-system effects. For a list see http://www.weepinitiative.org/livingwithEHS.html I have experienced all but three as far as I know.	11/30/2018 9:29 PM
229	Chronic Peripheral neuropathy and distal myopathy	11/30/2018 9:03 PM
230	Severe exacerbation of pre-existing toxic encephalopathy (commonly called multiple chemical sensitivity), myalgic encephalomyelitis (commonly called chronic fatigue and immune dysfunction syndrome), allergies, and damage to immune system resulting in constant worsening of reactivation of systemic herpes infection.	11/30/2018 4:52 PM
231	Increased irritability	11/30/2018 4:07 PM
232	severe tinnitus and fibromyalgia type symptoms	11/30/2018 9:29 AM
233	agitation; over-active nervous system including tingling and extreme muscle cramps	11/30/2018 8:07 AM
234	pain in both ears	11/30/2018 7:41 AM
235	I try to avoid wireless technology and microwave ovens as much as possible. I've had my "smart meter" removed by PG&E. My car is an older model with less computerization.	11/30/2018 7:38 AM
236	Sinus pressure and burning; a feeling of being zapped or electrified	11/30/2018 5:58 AM
237	Tendon Damage.	11/30/2018 4:50 AM
238	Hypothyroidism, which developed when I lived close to a cell tower	11/30/2018 4:21 AM
239	Syptoms (walking difficulties, arm pain, poor coordination) of my stroke return.	11/29/2018 9:39 PM

257	Wired feeling under skin in side pocket where cell has been for 10 years	11/27/2018 4:00 PM
258	These symptoms disappear when I get out of the radiation. I don't "believe" it. i witnessed it.	11/27/2018 3:48 PM
259	tremors - my husband and I both have them & they've worsened.	11/27/2018 1:42 PM
260	I have had everyday migraines. I've had pains where ever the fitbit made regular contact with my skin. It is hard to remember everything.	11/27/2018 1:37 PM
261	and nose bleeds. When the smart meter was on my home I experienced severe physical symptoms. The meter removed noise still everywhere.	11/27/2018 1:27 PM
262	These apply to me and my wife	11/27/2018 1:23 PM
263	Adrenal Fatigue, Endometriosis, Dysbiosis, Common Variable Immune Deficiency (CVID)	11/27/2018 1:03 PM
264	itchy eyes	11/27/2018 12:15 PM
265	I get dizzy when exposed to wireless cell phones or wireless computers. Some of the above may apply to me, but I'm not sure because I have severe allergies, which cause some of the above.	11/27/2018 11:47 AM
266	tinnitus hearing repeating music and ringing noises, a shivering feeling, pins and needles in face, tingling sensation through body	11/27/2018 11:46 AM
267	hyper aware of my surroundings unlike before EMF's were deployed which causes much stress	11/27/2018 11:38 AM
268	nose bleeds	11/27/2018 11:18 AM
269	I am sensitive to RF waves especially from cell phones.	11/27/2018 11:15 AM
270	I don't know ... how are you supposed to know really?? Don't have many of these problems at least regularly.	11/27/2018 11:00 AM
271	disorientation, visual disturbance	11/27/2018 11:00 AM

12	We are one of the few that refused a smart meter, however most of our surrounding neighbors are now a part of the smart grid which still has an effect on our life to some point.	1/25/2019 3:07 PM
13	In order, WiFi effects me the worst, and signals are far-reaching. In rural areas, new cell phones are powerful, no one turns off the WiFi on their phone, so even on beaches, hiking, forests, ski areas, their phones are always seeking WiFi and signals interfere with my balance, head pains, eye pains.	1/25/2019 2:00 PM
14	After living w/9 digital meters on my outside apt walls, and surrounded by neighboring 24 hr wi-fi, I developed chronic sensitivity & could no longer live there w/the pain I was suffering.	1/25/2019 12:54 PM

25	Would welcome in home EMF/RF exposure readings and documentation	1/24/2019 5:19 PM
26	I haven't checked off some of the items above, because I haven't experienced them yet (probably smart grid & baby monitors may cause EMF pain), so I don't know if I am sensitive to them. If computers are hard wired I am fine. My children have their cell phones hard wired and in airplane mode at all times around me. They go to the end of the driveway if they need to text. We are trying to learn the software devices that can help them use their cell phones when they are hard wired (plugged into the wall)	1/24/2019 4:04 PM

87	Car? I drive a 1980 -- intentionally no wireless functions. I find celltower emissions damage foods -- notably fats/oils, nuts, wholegrain flours, etc. -- effect similar to rancidity (inflaming -- shreds immune system -- presumably loaded with free radicals). Relatedly? -- 1999, one major anaphylactic incident (with lanolin -- a previously-harmless supply -- on lips), in what turned out to be a "node" among whip-antennas; lanolin allergy ever since.	1/19/2019 12:20 AM
88	These did not cause my illness. My immune and neurological system crashed due to a candida infection. Then this caused excitation of limbic system in brain which caused limbic kindling and sensitization to emf and chemical sources	1/15/2019 7:26 PM

102	not sure	12/31/2018 3:25 PM

103	1) I live across the street from a power substation that keeps adding new cell towers every year or so, it started small and now has a half dozen just since I moved here in 2004. 2) our condo complex hoa tried putting "no smart meter" signs on our meters but the power company SRP (Arizona) put up the smart meters anyway; 3) our zip code 85257 in south Scottsdale is a testing ground for "Nuro" driverless cars for grocery delivery and these cars are constantly driving our neighborhood streets even when not making any deliveries, so we can't even go outside for a walk without being surrounded by these Neuro cars on a daily basis. 5) I see warnings in the instruction pamphlets for my LED Christmas lights that they might cause TV interference.	12/31/2018 3:09 PM
104	At this time I still am lucky enough to have an analog meter. I want PA to have an opt out choice because "smart" meters are coming to my neighborhood soon.	12/31/2018 2:50 PM
105	all of the above would bother me if exposed, I checked only the ones I have been exposed to	12/31/2018 2:24 PM
106	They are fluorescent lights. They certainly are not "florescent," which means flowering! Lumping some of these things together seems a bit odd. Also, no specification as to whether the problems came before/after something else. For instance, cell phones now affect me severely, but did not until s/m installed in neighborhood. Many of these devices were not / are not in my home, but have affected me.	12/31/2018 2:23 PM
107	We hardwire everything we can.	12/22/2018 8:46 PM
108	I had to remove these items from my home and also sell house and move away from celltower and powerlines.	12/21/2018 5:42 AM
109	I was not very EMF sensitive until Smart Meters were installed. Now all wireless affects me.	12/18/2018 10:15 PM
110	Unable to make such a determination.	12/16/2018 11:06 AM
111	I also suspected that an unused satellite dish on my roof was causing problems, but I have no proof. I had the satellite dish removed at the same time as the Smart Meter.	12/15/2018 4:41 PM

121	two way radios worn and used for years daily at work	12/13/2018 12:48 AM
122	I don't have wi-fi or a smart meter or use a cell phone often. I'm most concerned about the cell tower and find it unfair that I have no choice except to move if I want to address my concerns.	12/12/2018 9:52 PM
123	I do not have a microwave or cordless phone and never have because I'm aware of the EMFs.	12/12/2018 9:01 PM
124	Now I live in a townhouse. On cold nights neighbor's abnormally large HVAC is going non-stop at night. I can feel the negative field around that machine near my bedroom. Was getting headaches. Now sleep in living room away from that machine, no more headaches and better sleep.	12/12/2018 6:07 PM

130	Dish Network Hopper with Sling - emitting high level of EMF 24/7	12/12/2018 12:44 AM
131	I am really not sure what bothers me because things that have been directed to me change, but I don't have any zigbee chips in appliances or a smart meter. Smart meters are on all the houses near mine. I bought Stetzer wall outlet filters, but I think they have been broken with the directed energy also going through my electric lines. My Gigahertz HF-35C meter and one less expensive lower levels meter were apparently stolen by these people who come into my home with this program they put me in. They might have done it originally because I did research into EMFs and smart meters before they were installed in my area. I mentioned the subject in a few meetings and wrote to the TX PUC trying to get opt outs for people who wanted that.	12/12/2018 12:36 AM
132	I became very sick from the Edison smart meter on my house and the dirty electricity traveling through the water pipes in my house.	12/12/2018 12:36 AM

186	Laptops. Activity trackers, including the fitbit one and others. Wifi boosters. More.	11/27/2018 1:37 PM
187	The biggest issue was the smart meter (near where I slept) but all other wireless have contributed.	11/27/2018 1:03 PM
188	bluetooth	11/27/2018 12:45 PM
189	Problems occurred right after installation of the smart meter. Though other wireless devices may have been having an effect, they were not noticeable. Am glad I've been alerted and not trying to go as free of EMFs as possible.	11/27/2018 12:15 PM
190	I don't use a cell phone, got rid of Wi-fi and microwave. I am no longer sensitive to my computer and monitor. I would like to get a new computer and monitor, but I'm afraid to.	11/27/2018 11:47 AM
191	Apartment complex #45 units with smart meters, 2 towers within 500 yards	11/27/2018 11:40 AM
192	EMF's beamed down from outer space by the Secret Military Space Program	11/27/2018 11:38 AM
193	In terms of causation, I believe it began gradually as a result of an exceptionally high level of emf in my car; exposure to powerlines, cell phones, wi-fi and cell towers trigger physical symptoms. We pay a fee to the utility company to avoid smart meter installation. Am increasingly sensitive to florescent lights and computer use.	11/27/2018 11:07 AM
194	again I dont really have any health problems but I do have many of these in our home of course.	11/27/2018 11:00 AM

26	Emf intolerance is a purely physical functional impairment and I have found it important to get advice about how to physically cope with it. But, note, no counselling has been provided by national health services. The only counselling I have ever come across is that provided by generous and enlightened fellow sufferers, and those scientists who have shown that wireless technology has not yet been proved safe. I have benefitted from the kindness of the emf community world wide in the way that they have shared scientific facts with me so I fully understand why my DNA is being compromised. But pity the poor soul who is bewildered by their terrible physical symptoms and does not have a clue what is causing them. Pity the vast swathes of uneducated populations who wonder why young men are suddenly dropping dead on football pitches (near mobile masts) or the terrible upsurge in brain tumours in all age groups (including babies!), or the increase in Alzheimers, especially for 30-year olds. Not to mention those who are pushed to suicide because they have suffered too long and never got any respite (e.g. Jenny Fry) or, again, those who simply do not know why their body feels so awful.	1/25/2019 2:15 AM

49	Also have a naturopathic doctor, and they have helped a lot. Working together we try to figure out what helps and works. using herbs, supplements, and monitoring of health. They now serve as my primary care doctor. They understand and beleve the EMFS is real. There is no judgement. on another note. Stetzers cut out some of the dirty electricity, but they also give off emf's. I don't need counseling ot therapy. There is nothing mentaly wrong with me. The sickness is caused by the highly charged emf envrionments of manmade EMF's.	1/23/2019 11:15 PM

Also avoiding anything that will trigger even a candida reaction, there are NO GOODIES anymore, I get itchy rashes if I eat anything with sugar. I think a solid, anti-inflammatory diet rich in health fats, antioxidants and clean protein (such as Wahls) for detoxification support are essential (disclaimer I'm a Functional Medicine Health Coach and previously unable to walk well due to Lyme disease, I could only walk and stand with a cane for a while when at my worst. 150	I can't describe these things to a doctor because the people who are targeted usually get either chronic Lyme or Morgellon's, and there is no medical code for Morgellon's. I did check with a doctor who did not think I had Lyme, so I think it is Morgellon's. I just try to deal with the symptoms of that by trying to keep my immune system as strong as possible. The Stetzer filters did seem to help when they were new. Sometimes I turned my circuit breakers off (including my refrigerator) at night for a number of hours just trying to get a little relief so I could sleep. I think the implants are inside of me, so I doubt if there is anything I can do about that. I tried mentioning something and giving two doctors something about this in the beginning when I finally figured out what had happened to me, but the doctors were probably frightened and didn't really offer any help for problems related to this subject.	12/12/2018 12:36 AM

220	The biggest help for me was being diagnosed with CIRS (See Shoemaker Protocol) which is what caused my MCS and EHS. Biotxin patients are very toxic which is why they get MCS/EHS. I have a double genetic sensitivity to mould which means I can't eliminate biotoxins and they build up in the body. 3	They are putting a 5G small cell across the street from me. I will have to move away from my family home of 61 years which has been in my family since the 1940s. This is heartbreaking and criminal. I wish someone would sue them in a class action lawsuit but they are untouchable. Most people are clueless as to what awaits them. God help us all.	1/28/2019 1:48 PM

5	Symptoms have reduced since taking the many measures I have. Compared to 2 1/2 years ago, when I figured out what I was reacting to, I have improved a lot. When I am exposed to RF-EMFs, my reactions are less severe and I can recover more quickly. However, I am never in the severe environments that I used to be exposed to, namely school, where there are high-powered WiFi and multiple devices on at once.	1/28/2019 4:58 AM
6	Adding more untested (or unacceptable testing) exposure is not worth the risk to the health of the planet and all living beings. I value health far beyond the speed of accessing films on available devices. It seems like a no brainer!!!	1/27/2019 8:40 PM
7	I am very sensitive to EMF and there is electric poll just outside our home and if they install 5G antenna on the poll I won't be able to live in my home that I am living for 35 years in San Rafael, CA	1/27/2019 8:01 PM

13	Why are these EMF devices allowed to be used against the public? Are City Council members being paid "extra money" to vote for the cell towers, the Smart Meters, the Wi-Fi, and other ways to cause illness, death to their constituents? Otherwise, what is the reason for being a City Council member, a mayor, any type of government official except more money????	1/27/2019 11:54 AM
14	I have affordable rent & I'm able to commute to work by bus & bike so I don't add another car & it's fuel emissions to the environment. If I need to move to a less densely populated area that has less emf I will either have less work, possibly higher rent or travel costs & I'll need to travel more by car or bus, which pollutes the air.	1/27/2019 11:01 AM

18	The power went off briefly in our neighborhood in a recent storm and also a few years before when we lived elsewhere, and on both occasions the calm we felt when freed from the burden of all the EMF of our everyday lives was so striking. Even my husband, who's not at all sensitive, noticed it. I long to experience that on a regular basis, and greatly fear the coming of 5G (especially from satellites) and the possibility of never being able to feel that calm anywhere on earth ever again.	1/27/2019 9:56 AM

20	I tell as many as I can. Everyone I've discussed EMF with already had concerns about adverse effects on health and/or techno security!	1/26/2019 11:57 PM
21	I was working as a computer tech when this went from a mild issue to one that is serious and unable to work outside the home. Exposure makes me really tired but also unable to sleep very well. It makes it hard to think and string sentences together.	1/26/2019 8:23 PM

23	I am concerned for North America. I would like to "see" visually if possible, or, on a graph or something this invisible problem to me in a way that I can understand. Is the magnetizing the water for farmers, and the magnetizing the water in the air changing our weather patterns? I read it changes the structure of the water molecules. Thank you.	1/26/2019 1:53 PM
24	EMF exposures [including RF] has been the single most life changing thing that I have experienced. The fact numerous people, including children and infants, are becoming sick from EMFs and that it is 100% preventable is unbelievable in the 21st century. Once again, how many people have to get sick or die before change happens?	1/26/2019 1:34 PM
25	Light, another for is EMF, has a massive impact on me as well. Avoiding blue blue light at night.	1/26/2019 10:34 AM
26	Constant 24 hour EMF exposure by having a micro cell tower in front of your home is the biggest threat to home invasion. It's a silent killer. Telecom companies dont talk about it nor choose to perform their own studies. Peer reviewed studies by scientists, professors and doctors know this to be true but corporate greed chooses to put profit over people.	1/26/2019 8:29 AM
27	Not at this time	1/25/2019 10:56 PM
28	Thank you =)	1/25/2019 6:19 PM
29	Avoiding or limiting exposure is the most vital aspect in improving symptoms. Initially I needed to be in an environment at a level of zero electromagnetic frequencies for weeks to months. I've been sleeping in a shielded bedroom now for 4 years and I am able to tolerate mild exposures now for short durations.	1/25/2019 5:54 PM

35	GSM Towers/Masts, DECT, Wi-fi, Baby Monitor have greatest effect, sensitivity to local Wind Turbines (infra-sound). Effects from cell phones minimum due to non-usage/very occasional usage and avoidance of users of cell phone by avoiding public service transport and going out in public as much as possible. Shielding of home has helped greatly.	1/25/2019 1:01 PM

44	I was able to regain my health about 85% with all the above steps, and unfortunately did finally buy a cell phone two years ago for business use, but mostly keep it in Airplane mode or distant from my body except when using it. I tolerate it that way, but feel it.	1/24/2019 7:31 PM

45	I've had several of the physical conditions attributed to emf but they started long ago (1973), long before cell phone, wifi, and dirty electricity. I'm not convinced of the cause and effect of emf claims.	1/24/2019 6:39 PM

48	Regional testing with results released to public consumers. Public meetings to discuss results. Research, expose and PUBLISH when, where, why, who and how this UNCONSTITUTIONAL draconian Global network evolved. Explain how this relates to a technocratic AI Internet of things.	1/24/2019 5:19 PM
49	We need new laws to protect EHS disabled and MCS people so they can participate in public places without getting harmed. We need to raise public awareness like scent sensitivities, with signs posted encouraging people in public places to put all devices in "airplane mode" when they are in a crowd and NOT to use vibrate or silent mode, as they still emit signals that hurt environmentally sensitive people. Similar to smoking laws. EHS challenged people need opportunities to participate fully in life.	1/24/2019 4:04 PM
50	The microwaves from cell towers and smart meters are making my property functionally dangerous and uninhabitable from a health & safety standpoint and must be taken down somehow, however it can be done.	1/24/2019 3:59 PM

52	Where is the testing for human, animal health??? Where is the accountability with the power companies??? No one has the right to profit from human health.	1/24/2019 1:40 PM
53	I have 7 dr. letters that say I need an analog meter. 2 family members, 2 friends and a business in my town got analog meters, still. I am disabled, why not me? Health is an issue and the wireless companies should not be exempt from that!!	1/24/2019 12:43 PM

58	We try not to use our electronic systems as much as we used to, and we realize when we have power outages here at home due to PGE's lack of repair to their equipment, we feel much better. I wish our culture and government did not require us to use this technology all the time. It is really detrimental to our health.	1/24/2019 9:41 AM
59	The past eight years have been a significant life altering event for me, since a cell phone tower was built 350 m from my home with antenna facing my house, raised on a sand dune in line with rf signal waves.	1/24/2019 9:38 AM
60	Important to manoeuver lifestyle and activity to ensure avoidance, mitigation.	1/24/2019 9:37 AM
61	The only thing that would be really effective is a low cost (no luxury) treatment place where you can live for a prolonged time without EMF exposure while detoxing. It does not have to be supervised by a doctor, as then the cost explodes. Access to a doctor apart from such a place is needed, but not a doctor that earns his living on such a place. it is the area and the community that is needed and at affordable levels for a stay of 6-12 months or so.	1/24/2019 9:28 AM
62	Afraid that the 5G will worsen my condition!	1/24/2019 7:13 AM
63	Not having control over my own environment such that my health and life are at the mercy of neighbors and telecom companies and governments is terribly stressful in an of itself. I must have a safe environment to live in. I have a complex health condition and exposures to smart electric and water meters have made it much tougher for me.	1/24/2019 6:22 AM

64	Emf's is a serious issue and need to be taken seriously. They may well be the biggest future problem for us on earth as we are only immersing ourselves in more and more emfs as time passes.	1/24/2019 5:56 AM

69	Thank you!	1/24/2019 2:35 AM
70	I developed EHS in the Fall of 2011 when for a short time, about 3 months, I lived in an apartment in West Sacramento that was near a monstrous cell tower. I assumed it would not be a problem even though I have a sensitive body and it was only a few blocks away from the apartment building I was in. I found after about 3 months that I had a constant headache when I was there that went away when I was not there, and that my immune system was weakened. Normally I can get rid of a bug (cold, etc.) within a few days but I came down with something and it hung on. My EHS got noticeably worse in the Fall of 2018 after I spent a LOT of time sending text messages with several attached photographs from my iPhone SE. Wireless access points, such as on the ceiling in some public libraries, feel very strong to me. I can't stand them. Even before this fall the EMF from my Garmin GPS system, which I keep in the trunk, felt very strong. I got rid of my smart utility meters in 2013. Thank you for doing this survey. Keep up the good work.	1/24/2019 2:28 AM
71	Had this condition along with severe immune disorders for more than 10 years...only a complete wifi/cell free are helps really...wifi worse than cellular for me?	1/24/2019 2:26 AM
72	I would like to know the effects of Fibre internet cabling on my health	1/24/2019 2:11 AM
73	It would take several days to type up a full description of all the serious health, professional and financial horrors that have harmed me, by the massive radiation exposure I received from just one so-called 'smart' meter, that was installed seven feet below the head of my bed for two months, nine years ago. Mainly I do not understand how the tech industry is being allowed to damage the DNA in everyliving thing by their massive ambient radiation emissions that are stronger everyday. 5G is a neutron bomb, a doomsday machine. Why is this being allowed ?	1/24/2019 12:27 AM
74	The effects are subtle and diffuse, many people do not correlate them, once one pays attention, it is easy to discern	1/23/2019 11:56 PM
75	Thanks for the work you are doing to increase awareness of this issue!	1/23/2019 11:25 PM
76	I think you need another survey to follow that goes into the issues in greater depth. I'm happy to help if you should like. Thank you for your survey. Will you share your results?	1/23/2019 11:15 PM

79	My avoidance of EMR has probably supported the good heath I now enjoy at 88 years.	1/23/2019 9:53 PM
80	I do not want to push anything, on anyone, because EHS (electro hypersensitivity) is a horrible illness, and each of us are different. However, I highly recommend taking the DNRS because over the past 3 months I am in less pain, do not feel that I cannot make it, and lately I have not been taken to an ambulance to the emergency department. The daily exercise help me deal with the pain and the fear. Also, I have found that using the fabric, that helps stop EMF traveling through the windows, has helped me. Making sheer curtains with the fabric (Swiss Naturelle?), keeps the radiation, from my neighbors houses, out of my home. I now feel better when I am near a window.	1/23/2019 9:34 PM
81	5G is just around the corner. Scary.	1/23/2019 9:16 PM
82	Wish I could figure out how to get rid of the WiFi router and go back to the old way of the internet. Need help with that and wish other people had more understanding for EMF.	1/23/2019 9:09 PM
83	It is a sick world that is getting sicker.	1/23/2019 9:06 PM
84	i really dont like EMF exposure, I feel my mood and thinking change and know/feel when an emf source is turned on around me.	1/23/2019 8:58 PM
85	Please find a way to stop 5G! too	1/23/2019 8:40 PM

86	It was two years of high-intensity radiation from the illegal cell mast that caused me to be EMF sensitive. I had no symptoms before that, but have constant sensitivity now.	1/23/2019 8:37 PM
87	As I mentioned above, I'm someone who has been seriously harmed by radiation and without the SafeSpaceProtection products I'd be an EMF refugee.	1/23/2019 8:35 PM
88	m concerned that I am affected by smart meters and cell phones used by other near me. But I am 85 years old and seem to be in very good health. Perhaps I have benefited because throughout much of my life I was not much exposed some of these causes of health problems.	1/23/2019 8:08 PM
89	I have been overexposed to heavy metals and electromagnetic equipment for most of my life. It took me years to figure out what was going on. I'm so grateful for all the attention that is being placed on the subject now. It's helped me reclaim my life... and I am very careful of my environment and diet.	1/23/2019 8:07 PM
90	If I go to downtown or whole foods store with a lot of people using cell phones, I gets tinnitus next day. If I stay at home and I recover rather quickly.	1/23/2019 7:34 PM
91	I just don't see how all this microwave escalation can possibly not be hurting us and other living things	1/23/2019 7:14 PM
92	Yes ...my sleeping problems, concentration and buzzing hissing noise sometimes sounds like frequencies going through the brain faster than the speed of light ...started in July 2015 asked the doctor was told two other patients complained of the same symptoms that same year the sugercane was cut opposite my home end of September 2015..realised why I was sufferingthere was a telecommunications tower on a neighbours property..less than a kilometre away...now clearly in view no one was advised...my health and my life is only suffering and being tortured in my own home...changed my life overnight ...but well aware of what was and is still causing my health problems	1/23/2019 7:13 PM
93	Hard to differentiate EMS symptoms from a lot of other health issues. I know my cell phone causes particular EMS symptoms (particularly heart rhythm and feeling generally unwell); and fluorescent lights in stores and CFL bulbs. I usually have to wear sunglasses (NoIR) to use my computer and watch TV.	1/23/2019 7:01 PM
94	Installation of a SMART METER on the wall behind my bed is what triggered my condition	1/23/2019 6:39 PM
95	I wish we could find out why my wife is hurt by sounds that others can not hear but she gets a noise either from a cell tower nearby or a system of high power lines nearby.	1/23/2019 6:39 PM
96	I live in Senior Mobile Home Park, so no choices. Would love to try shields. Health has been destroyed, last 2 1/2 years. Bad Emphzema & lots of problems. First year, 8 people died of Cancer. I'm surrounded by smart meters, 4 directly around my house. These will kill me.	1/23/2019 6:31 PM
97	The natural methods seem to be working, although I am now possibly at risk in my apartment building for "smart" meters to be imposed and 5G in my neighborhood. I am organizing with others to prevent both!	1/23/2019 6:30 PM
98	I have to move from my apt to a house but can't afford it!	1/23/2019 6:08 PM
99	I have given my neighbors WI FI screening devices for their routers because most of them have gotten cancer	1/23/2019 5:53 PM
100	Very few people I talk to are aware of RMF radiation and its effects. A much bigger awareness campaign needs to be mounted. Most people are not interested in the subject and think I am a conspiracy theorist.	1/23/2019 5:53 PM

106	I have and AMR meter they won't let me have and analog at any price plus have smart meter on water and gas my problems started 2012 its 2019 I recently discovered having these my permission was never given and I have a fight on my hands KY let's the utility companies have the say-so and the only way that you can get out of it is have everything turned off I need some help and don't know where to start most people around here are completely unaware . My husband is hard Waring for the internet but as far as the meters they all say its not dangerous and the radio only goes one way. Two ways and they're not smart meters I know they are please help I trying to figure this out and I can't	1/23/2019 4:43 PM

110	EMF is real and we should be very cautious on using wifi smartphones,per monitors and 5G cell towers	1/23/2019 4:19 PM
111	Clothing made of shielding material made flying on wifi planes worse. Treating food and chemical sensitivities with allergy shots made per Dr. Rea's protocol helped alot! Reducing the stress load overall by treating sensitivities. Be happy, laugh alot, choose to see the world as bountiful, even if a lot of it is lived inside my home which is completely shielded.	1/23/2019 4:09 PM
112	I will try to add more helpful things for EMF avoidance.	1/23/2019 4:04 PM
113	Tinnitus is now constant but some of the other symptoms we have fade when we are away from electrical environments dizziness and digestive issues and rashes for me and my wife has breathing and allergy like symptoms i also wonder about the cataracts we both developed in same time frame neither of us smoke drink or take any drugs try to eat healthy and do take some supplements to help house is on ledge and has full basement meter is on building75ft from house but signals are strongest near meter and on cords plugged into wall outlets/installed switch devices in bedrooms seems to be more from one buss in breaker panel than the other will try next to swap breakers around to put bedroom on quieter side	1/23/2019 4:00 PM

141	Thank you for what you do. I am struggling with the power company re: transmission lines over a property we just bought. I am determined to remediate the strong magnetic field before we spend time there. It is simply criminal that the US has no safety standards, and that the power company wants to charge me \$100k to move the lines over a little bit--which might not even impact the field! This is beyond frustrating--but the problem is a manmade one, so I believe a solution is possible and likely as technology and awareness progress.	1/23/2019 1:31 PM

167	There needs to be safe places and spaces where people can CHOOSE if there is wireless exposure or not- a town should not be forced to have cell towers or smart meters in every area. I am not talking about some town or city in the middle of nowhere that is separated from society, I mean in every place, there should be safe places in towns and cities with less or no wireless and emf exposure, or exposure by choice. It should be our choice what we are exposed to, and if we want to turn something off, we should be able to. This is critical as so many are suffering already and are prohibited from living regular lifestyles, and cannot go to many public places or work in offices. I personally cannot work in any office with wifi. We need to create safer spaces as more and more people are impacted by this and their health is and will continue to suffer as more wireless exposure increases.	1/23/2019 11:55 AM
168	MY symptoms are not severe, but we noticed that our cats had a problem after the smart meter was installed next door and I had to move their feeding spot as well as give them flower essences to protect them.	1/23/2019 11:51 AM

170	I have found over the years and understand why due to my background in electronics that most of my electrical sensitivity is coming from chronic inflammation due to multiple food allergies. Inflammatory tissues retain heavy amounts of sodium, and this heavy sodium retention makes a pathway for induced electrical current flow in the body because of impurities contained therein. Salt water conducts far better than pure mineral free water.	1/23/2019 11:45 AM

175	Aching-bed, in Seattle for 7 years, from broadcast towers at 9 blocks away. Same, 1988 visiting in San Francisco, Sutro Tower at 3 mi away; the only family member who didn't have trouble was sleeping in a room out of line-of-sight of Sutro Tower. Moved away from Seattle, 1986, got back good sleep (8-9 hrs/night). 1999, utility added "smart" meters; my sleep crashed to 3-4 hrs/night, from the 1st night, and has never recovered. Re dental amalgam, N/A (I didn't have any); had gold onlays, removing them was good-but-not-sufficient. Re Grounding/Earthing: Earthing-bands give me burns matching the metal part (despite ground-line properly checked). Even outdoors, I rarely get to a place electropeaceful enough that it's not just worse. I use a Macbook Air comfortably, with both its wireless functions turned off, and an Invisible Shield (Zagg or similar plastic skin) so no direct aluminum contact.	1/19/2019 12:20 AM
176	Just that early on, I gave up my cordless phone, microwave oven, got a wired system for computer (so no WiFi, use my corded phone/old, non-smart cell phone for texting; so I couldn't say what the effects of those are on me. When I go into environments that are loaded with microwave radiation, I don't feel as good. With the car, I don't feel good after I've been driving for an hour or more. I believe it may be magnetic and electrical fields, but haven't tested this with meters yet.	1/18/2019 7:34 PM
177	I'm upset that I have no control over what is allowed. The street light outside of my room was just changed to LED. My insomnia seems to be worse since it was switched out. 221	To force something on someone with out their consent is illegal yet utilities companies seem to think they don't need your consent to have a meter sending radiation through out your home and body. And if you don't comply with the so called upgrade your turned off from all basic human rights to have a healthy safe home environment? Seem treasonous and someone should hang for doing this to people. Here in Alaska will freeze with out heat and the heartless utilities companies refuse to leave my analog meter alone and we will be turned off Jan of 2019 our pipes will freeze we won't have heat or water or electricity this is so damn wrong to do to people because they refuse smart meter radiation poisoning and possibly overheating problems were the catch fire. My gas line runs above the meter our house would explode with all of us in it. I have a roommate who is disabled she had a sever stroke can't move left side of body she has no rights to get better as the radiation kills your cells she will only get worse. She is only 38 we can't help but wonder if the smart meter on her home caused her stroke. Her brain function is not back from the stroke. She will have no chance of getting better with a microwave radiation meter destroying the very thing that needs to heal. The stress about these smart meters have been going on for more than 4 years as I left California to get away from them move to Alaska and there here now too. Fighting 2 years with all the organization supposed to help people are actually doing business for utilities off the same bribery money I mean grant money to kill Americans and keep them to l'll to know what's going on.	12/14/2018 7:10 PM

223	I started off slowly toward almost complete in-capacitation from EMF's and began to detox from Heavy Metals plus try to remediate the EBV virus that is dormant in my body and now I am almost back to perfect health but have to live in a completely EMF free environment in the country. As soon as I go in to a coffee shop, a library or any public place in the city, my health is affected. I can't travel or visit friends houses if there is really high levels of radiation, I can't go to my sons school functions etc if there are a lot of people because of the high amount of cell phones. This is a big problem and I have been researching and working on trying to raise awareness on the subject for a couple years now. Sadly, the entire population is unaware of the affects of wireless radiation so thanks for spreading the word.	12/14/2018 12:13 PM

254	I don't use any wireless products, or have it in my home. Although I've not been severely affected by EMFs I know the damage they can do so I try to do my best to be aware. I rarely use my cell phone, don't carry it on my body, and use speaker on my cordless. All the "waves" deeply concern me for the future of our health. It is out of control.	12/12/2018 8:57 AM

258	Smart meters caused my total breakdown 5 years ago and my life has been difficult since. Sometimes I feel so hopeless....why are these telecoms allow to destroy my life? So many are addicted to these devices, it is changing the world in general. And not for the good.	12/12/2018 7:02 AM
259	Thank you for doing this! We desperately need physicians to learn about electromagnetic sensitivity and how to manage patients, We need safe areas everywhere, especially white zones for us to live, work and exercise. How can one go for a healthy run in the smart grid? When one is made homeless by a smart meter there is NO WHERE TO GO! Too many people think its psychological which is not helpful. Emergency shelters need to have shielded areas for people with EMS. I know, having been forced out of my home. As a professional (3 degrees, and I am NOT alone) who has done advocacy work I am trying, in my area, to work with disability advocates for change. I hope others will do the same!	12/12/2018 6:48 AM

I had never heard of a T.I. until I had to try to figure out what abruptly happened to me that I started getting what I thought were directed energy weapons directed to me 24 hours a day. It is an all-encompassing program that affects every area of a person's life and apparently lasts for their entire lifetime. It seems that a person doesn't have to do much to get in this program. They don't like truth, from what I heard.	12/12/2018 12:36 AM

287	I have been monitoring the EMF and RF radiation effects for some time using a variety of good instrumentation. My Tinnitus was so severe that it sounded like rushing water 24/7. I eliminated all Wi-Fi, use metal encased computers, eliminated electric blanket, removed all "curly-cue" fluorescent bulbs, indoor blue lighting. Some things, like microwave ovens and LED light bulbs cannot be eliminated. I know that G% is going to be very bad--but isn't that the agenda?	12/11/2018 5:30 PM

Spending time in these fields can cause physical injury, for me a neuropathy from sitting near a magnet in a sub woofer near my desk, and plantar faciatitis from sleeping with feet in a stron electric field. Conditions improved when I measured and moved. Probably many doctor visits are due to such exposure and the medical community does not have a clue.	12/11/2018 2:59 PM

It was like nite and day! lfd not for the fact that I had met a severely EHS woman a year b4 this, I would possibly still be searching for the REASONS behind my exacerbating symptoms! The flock of canaries has grown so much since then ... sadly we need to keep spreading the word	12/6/2018 6:25 AM
327	You should be asking if we are aware of these options, not just if they were tried or not. To be useful you should also be asking how long we've noted issues (I would say I could tell when I got my first mobile phone that I 'felt' the radiation with every call). This also doesn't account for those that have other issues not directly attributable to EMFs (like mould exposure) that have a similar impact, but likely make some people even more sensitive. Health is always multiple interactions between genes and environment, so don't see how you'll get much out of a subjective survey.	12/5/2018 7:39 PM

334	After 8 years I have adjusted my life the best I can to accommodate this technology, this sensitivity. I've spent thousands on doctors and shielding. I can't tell if the sensitivity is progressing. I have concern that sleeping next to the radiation transmitter for so long may have injured me long term and I may have some severe health problems as I age. One side of my face feels different - the side that faced the transmitter. Only time will tell. I was in rural Southern Oregon in the middle of nowhere a few months ago and my body felt like I was 14! It was bliss. I don't know how I could survive there. I feel resigned. But I aim to fight this predatory industry overreach and find the brightness in helping my fellow man.... and woman.... and the birds and the bees.	12/3/2018 9:56 AM

339	As mentioned I am following the detox protocols provided by Dr Klinghardt from www.kiscience.com. I have been using this for 40 mins day 3 or 4 days a week and supporting this with his Chelation Support powder, Methylation support Powder, Far Infrared Sauna. Following his detox program of 15 x Chlorella Pyrenoidosa and 15 x Chlorella Vulgaris daily while detoxing & 3 dropperfuls of Cilantro Plus daily during this program. I am also alternating the Chlorella with Zeolite (Lava Vitae) Regarding the Footbath - it does emit LF radiation (between 3 - 13.7 LF) but the RF levels while it is being used are non existent. (0.0006 mw/Msquared). I am also about to start taking Liposomal Melatonin - which is recommended for stimulating the detox of the glymphatic system of the brain while sleeping. For those who are unable to detox - he recommends starting the Chlorella, Cilantro, Zeolite and Footbath in small doses and for shorter periods of time and gradually building up the bodies ability to cope with the detox. For detoxing aluminium from the brain he recommends Polomolo. Thus far I am on Week Six of detoxing - lots of bright red skin rashes are the main side effect. I have also had outbreak of thrush and cold sores as part of the cleansing process. Only once, when I took 1 teaspons of Zeolite (instead of 1/3 teas.) did i stomach/diarrohea. I have been using the Footbath for 2 weeks. My plan is to continue this protocol for another 3 - 4 months. i will switch to the RetroViral detox as well at some stage. And I may also use Polomolo for detoxing Aluminium. My primary issues is mercury poisoning resulting from corroded amalgams after 5 pregnancies. Anyway, that is where I am at. Feel free to ask questions. I will attach via FB an overview of the Australian \$ - none of the products are cheap - but in my estimation, he is the leading world expert on recovering from chronic health issues and heavy metal contamination. I have found his You Tube Channel very informative.	12/3/2018 1:39 AM

351	It would be nice not to be driven from our home of 30 odd years, by NBN which is slated for Fixed Wireless in our area, by 2020. Where does one go when one is allergic to all electrical devices and their ubiquitous toxic, electro-smog? What do we do as satellite-transmissions become ever denser and stronger? In the not-too-distant future, I expect we'll be direct-hit by a routine X30-Class solar-flare or equivalent, which will purge the planet of its techno-infestation. The irony is that everyone is so preoccupied with their devices, to consider adequate preparation for such an inevitability. What goes around, comes around.	12/1/2018 6:32 PM

352	In your first question about "aware" vs "injury" this is a very difficult thing to establish - I could have injury - certainly I had reproducible effects after MRI that involved (from my research) the hippocampus - but was injury being produced or just revealed or played upon? Similarly for all other symptoms. I forgot to mention that I feel a slow onset of "hyper" symptoms with hours exposure to wifi in homes, and times when I suddenly feel hypoglycemic and that both of these reactions stemmed from times when I was totally unaware I could be sensitive so are not "all in the mind". Taking a lengthy whole body shower has been effective at times of severe symptoms including after MRI (found benefit the first time but the shower was delayed - only noticed the benefit after I had showered; took the shower within an hour of the second MRI and got a better effect than the first time with earlier showering	12/1/2018 2:45 PM

356	Until safety regulations of 1976 are restabilised to the stringent safeguards of 100mG, and the present dangerous safeguards of 1,000 to 2,000mg are removed, then nothing can be done. And when sufferers realise that exposure also causes neurological, cardiovascular, and haemodynamic disorders and is an illness and not sensitivity or an allergy, then something can be done.	11/30/2018 9:03 PM
357	Avoidance is best but mostly impossible.	11/30/2018 6:03 PM

361	I have not experienced outward EHS symptoms, but I know EMFs must affect me. I have become aware of all types mitigation efforts and have eliminated all RFs in my house (nothing "smart," MoCA adapters for wired internet coupled with a wifi router that is off unless absolutely necessary; we live on 2+ acres and the neighbors' RF doesn't register on my Acoustimeter). I do not have a smart meter. I have several EMF meters and am planning to purchase dirty electricity filters and a kill switch. I am also reducing blue light exposure on my computer monitors and have switched back to incandescents both at work and home. I wear blue blockers at night (even during my driving commute in the winter months). I try to go outside to get sun in my eyes all year and went to the beach 25 times this summer (I live 20 minutes away). I have become a big fan of Dr. Jack Kruse over the past couple of years, but am only beginning to really dive into his blogs and massive website. I still have to address any issues with geopathic stress. Hope this helps your survey!	11/30/2018 8:20 AM
362	Living with EHS is a huge challenge, physically, mentally, socially. My freedoms have been stripped so that others can be 'mobile', so that the government can 'protect me'. While I still have joy and gratitude for all I've had in my life so far as well as all I still have remaining, the severe challenges, limitations and sacrifices required to just survive day to day, sometimes feels almost insurmountable. 369	It cost a lot of money to live and move away from all the exposure and I don't have it. Most people are highly ignorant and don't feel it's harmful.	11/29/2018 8:12 PM
370	With old smart meter it helped when we moved the beds to the other side of the house. However with brand new smart meter sleeping far away from it didnt help. The health of my family started deteriorating very fast. Especially my daughter's who is on kidney dialysis.	11/29/2018 6:59 PM
371	IT TOOK 18 MONTHS TO GET TO WHERE i AM NOW AND I PUT MYSELF FIRST AND ALWAYS TAKE CARE OF MY EYES FROM THE BLUE LIGHT AND ANY emF'S	11/29/2018 6:40 PM
372	BC Hydro plans to force a RO smartmeter on me. I hadn't thought of turning the power off at the breaker at night but that could be a good idea, at least on nights when the weather is warm eniugh not to need any heat.	11/29/2018 5:50 PM
373	I already had dental amalgams removed, and had done heavy metal detox in recent past before onset of severe Microwave Sickness, which is why I marked "least helpful" because I still got sick.	11/29/2018 5:01 PM
374	THANK YOU	11/29/2018 2:06 PM
375	Thank you for putting on this survey. We are living in an unacceptable World today. To roll out new technologies without testing is wrong, wrong, wrong. This is just pure evil in it's purest form. What happened to our Constitutional rights to life, liberty and the pursuit of happiness. Things need to change. The utility of wireless technology is useless to me. As more and more people get sick, maybe more people will wake up to see the total insanity of this situation. Where is the informed consent? Where is the testing? When did industry know all this information about the health effects and do nothing? When did the government know about the health effects and do nothing? The government and industry knew a long time ago before this even started yet the technology rolled out anyway. What kind of world is this where we have traded communication over health? All the communication in the world means nothing if people are sick. This feels like the issue of Big Tobacco all over again in a different form of invisible pollution. I feel like I am living in Nazi Germany with the forced roll out of untested technology. I may decide to commit suicide if 5G rolls out because there will be no place for me to hide. I didn't come here to see the planet Earth and all of life be destroyed all over something stupid like wireless communication. Our leaders are delusional greedy idiots who think that all this wireless stuff is not effecting their health also. At least what they do to me, they do upon themselves. Thank you for listening.	11/29/2018 11:09 AM
376	Thank you.	11/29/2018 11:04 AM
377	My street got smart meters this month. I opted out. I have also ordered shielding fabric and materials for my home	11/29/2018 11:03 AM
378	EMFs cause harm.	11/29/2018 10:54 AM
379	Combination of smoking while talking on a cordless phone I believe strongly contributed to my 90% loss of hearing in the ear I most often held the phone against.	11/29/2018 9:42 AM
380	Many of us are being killed. Nothing short of that.	11/29/2018 9:31 AM
381	I think my kid may have gotten PANDAS (blood brain barrier problem) from sleeping next to a router when he was a baby. he also had high heavy metals. Dr. Rainbow treats EMF allergies in Petaluma.I haven't tried it.	11/29/2018 9:29 AM
382	thank you for what you do dont use computer often so am late replying hope this still helpful Deex	11/29/2018 4:39 AM
383	I research reliable information for writing letters to the editor, go to meetings, speak to our electric company and commissioners I write to electric company general manager, use Facebook to send articles about 5G. I always write the schools about the dangers of cell towers, cell phones, laptops, Wi-Fi, and much more,	11/28/2018 8:05 PM
384	Thank you for all you do - it is much appreciated!	11/28/2018 11:03 AM
385	Please stop 5G for getting us!!	11/28/2018 1:19 AM
386	no	11/27/2018 5:34 PM
387	no	11/27/2018 3:50 PM
388	I have anxiety about the abundance of radio frequency being forced on the public. And most of the public is unaware it can harm them. I'm fearful they will not know until it is too late.	11/27/2018 3:50 PM
389	Stop pollution at the source.	11/27/2018 3:48 PM

390	This has certainly contributed to isolation...I avoid going out into the radiated world as much as I can.	11/27/2018 3:22 PM
391	Applied anti-rad stickers on most devices in the house and phones.	11/27/2018 2:05 PM
392	Cell towers went in about 7 min. drive from us, despite door to door canvassing and much protest. Tremors have worsened. We won't have WIFI.	11/27/2018 1:42 PM
393	I sleep in total darkness, I put the head of the bed as far from the walls as possible. We have not shut off the electric to the bedroom, but we unplug as much as possible and little electricity flows through on its way to other rooms.	11/27/2018 1:37 PM
394	We live near a PG&E power poll with extra boxes on it and I have been unsuccessful determining what these are. A worker called them "repeaters" at one point but I could not confirm that nor determine any data of what these emit. PG&E should be forced to provide that info.	11/27/2018 1:23 PM
395	I live Australia - keep up the great work and thank you! We need more info on how to help EHS patients. Wi-Fi in schools is a really big concern along with 5G.	11/27/2018 1:03 PM
396	Not crazy about the new cell towers being put up around Lancaster, CA. where I live which allows 4 different cells to operate in them.	11/27/2018 12:30 PM
397	Thank you for your efforts in persevering to reduce man-made EMF and EMI exposure! May God bless you and your families abundantly!	11/27/2018 12:24 PM
398	I am so grateful for the help I've found on the internet and seek to implement it as thoroughly as possible. I'm more than angry that my choice has been taken from me by the smart meter and want to do whatever I can to return our right to choose!!!	11/27/2018 12:15 PM
399	I believe diet and exercise for moderate ems is necessary. I plan to travel next year, and I am worried about being enclosed on a plane and unable to control my environment.	11/27/2018 11:47 AM
400	Thanks, just knowing others are there helps to know I am not crazy. But this is Real and I desire to see it stopped.	11/27/2018 11:40 AM
401	Soon, this WAR we are in will be over and radiation will never again be an issue, but until that day, we must be hypervigilant against radiation.	11/27/2018 11:38 AM
402	I look forward to hearing the results of this survey.	11/27/2018 11:07 AM
